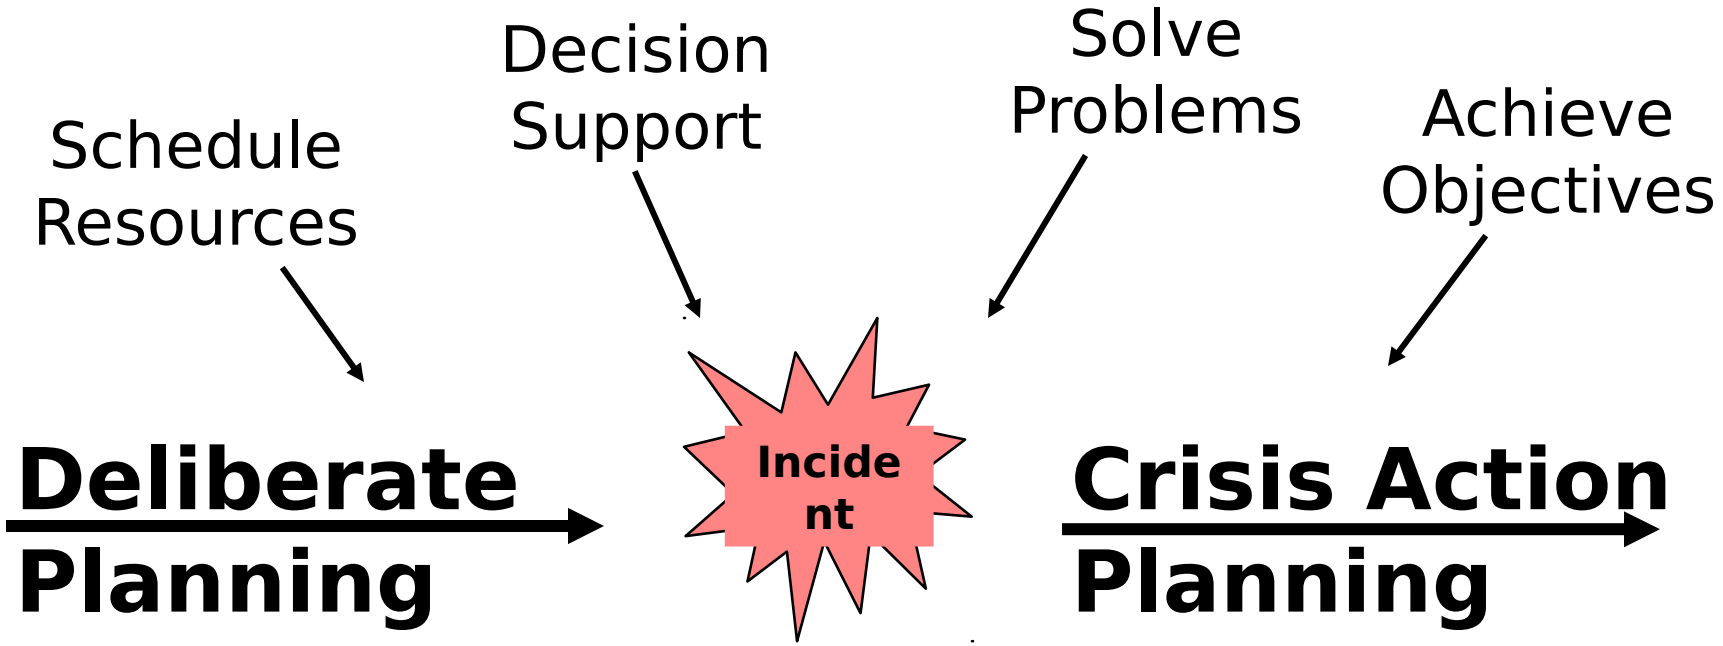
Operational Planning

The purpose of Operational Planning is to help achieve a desired end state.



FEMA

US Army Corps of Engineers ®

2007 Issue Statement

Effective interagency operational plans are not being developed to support federal/state operations.

2007 Recommendations

- **Doctrine:** Develop Interagency Operational Planning Doctrine and Policy.
- **ESFLG:** Establish operational planning role of ESFLG (deliberate and crisis action)
- **Commitment:** Obtain interagency commitment to deliberate and crisis action planning.
- **Future Planning:** Address gap in “Future Planning” during incident response.
- **Other Authorities:** Expand planning to include authorities beyond Stafford Act.

Operational Planning Improvements and Updates

- Gap Analysis – Paul Schwartz
- Logistics Capability Calculator – Mary Anne Lyle
- Intergovernmental Operational Planning – Eric Wozniak
- Strategic Recovery Planning – Curtis Carleton
- National Hurricane Program – Dan Catlett
